PLASTIC LOCKER INTEGRATED OVERALL SOLUTION

Dongzhixin Company has been focusing on the furniture industry for more than ten years and currently has two intelligent factories. Dongzhixin has always been dedicated to every detail with a spirit of craftsmanship, accumulating rich industry experience and technical accumulation. At present, we have a excellent design team of more than 6 people, a production workshop of 50,000 square meters, a warehouse of 20,000 square meters, 200+ employees, a monthly production capacity of 15,000 pieces, 24-hour after-sales service, and all of the products are strictly in conformity with ISO9001, ISO45001 certifications. With strong technical strength and innovative design concepts, we constantly break through tradition and create high-quality furniture that combines beauty and practicality.

Through multiple inspection procedures, we rigorously inspect materials, craftsmanship, and functionality to eliminate any defects. Whether it's product consultation, usage guidance, or after-sales issues, our professional team can provide you with efficient and thoughtful solutions in the first time.

为什么选择ABS储物柜/书包柜?

why ABS lockers/bag lockers are a good choice?

ABS 塑料是丙烯腈(Acrylonitrile)、丁二烯(Butadiene)、苯乙烯(Styrene)的三元共聚物,是综合性能良好、“坚韧、质硬、刚性”的塑料原材料,源自百度百科。

ABS plastic means terpolymer of Acrylonitrile, Butadiene and Styrene. It is a kind of plastic raw material with good comprehensive performance and "toughness, hardness and rigidity" (source: Baidu Wikipedia).

高强度的材料特性

High-strength materials

主材为ABS工程塑料,防水不锈,高抗冲更耐用
The main material is abs engineering plastic, waterproof and stainless, highly impact-resistant, and nmom durabe

更环保的塑料材质

More environmentally friendly plastics

无油漆无甲醛,防霉菌不变形,环保卫生无异味
Free of paint and formaldehyde, without mold deformation, environmentally-friendly, cleaner, without bad smell

搭积木般灵活组装

Flexible assembling like building blocks

板材榫卯连接,多规格随场地自由组合,DIY安装维护更方便
Tenon mortise connection of panels allow various specifications to be freehy combined according to the conditions of the site; diy installation and maintenance are easier

更多彩的搭配组合

More colorful matching

创意弧度造型,极简美学设计,多款彩色门板随心搭配
Creative arc shape, minimalist aesthetic design, and multiple -color door panels that allow arrangement at will

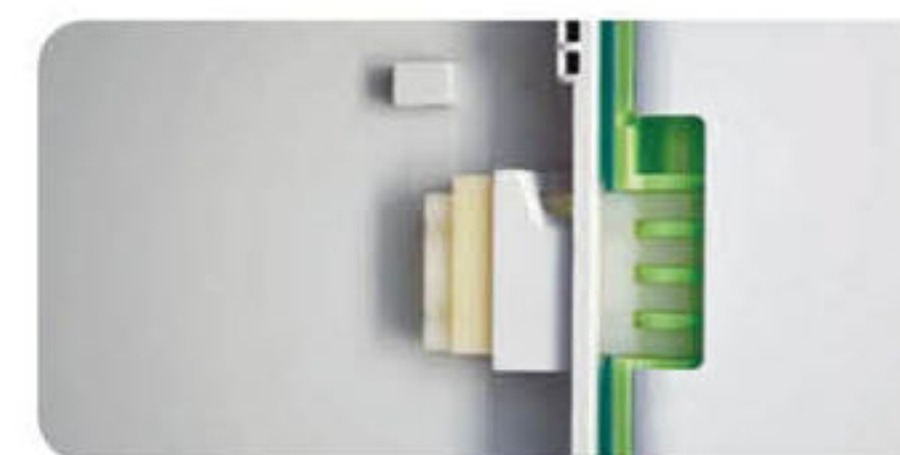

更安全的结构设计

Safer structural design

榫卯连接配合专业开发的高强度尼龙较链+耐嚼门轴
Tenon-mortise connection with professionally developed high-strength nylon hinge multi-wear-resistant door spindle

无螺丝榫卯连接结构,不再需要工具,更衣柜可以像拼玩具一样徒手组装。

尼龙(Nylon)塑料较链,高强度更耐磨,替代了传统的金属螺丝连接和胶水粘接。

经典款 / CLASSIC

经典382系列,革命性的结构创新引领行业,业内率先推出融合工业设计美学的弧度造型门板,不仅增加产品强度,同时可让产品更富美感。

The revolutionary structure of the classic 382 series leads the industry with innovation. The company is the first in the industry to introduce a curved shape door panel that integrates industrial design aesthetics, not only increasing the strength of the product, but also making the product more elegant.

以内涵体现不凡,,研发出的无螺丝榫卯连接和尼龙结构较链两项结构创新,现已被行业众多厂家采用,至今未被超越。

Representing extraordinary by connotation, the company has developed two structural innovations including screw-less mortise-tenon structure and nylon hinged structure, that have been adopted by many manufacturers in the industry.

SMART ABS LOCKER SERIES

There are various storage needs in daily life. Dongzhixin has proposed multiple intelligent storage locker solutions through analysis and research on outdoor storage scenarios, storage habits, storage needs, and other aspects. Using storage locker as carriers, intelligent systems such as mobile phone scanning, palm vein, facial recognition, card swiping, fingerprint, etc. are applied.

Dongzhixin Intelligent Storage System is committed to transforming storage scenarios with flexible intelligent systems, making storage intelligent and efficient.

MULTIPLE MODES FOR MORE FLEXIBLE USE

Multiple intelligent systems such as mobile scanning, palm vein, and facial recognition are available for different scenario requirements, with strong flexibility and suitable for various scenarios

GLOBAL MANAGEMENT, SMARTER SECURITY

Centralized management, unified settings, can achieve operation record keeping, data storage, traceable, and improve security coefficient. Unmanned management reduces labor costs and improves storage efficiency.

MODULE DESIGN, MORE DIVERSE FUNCTIONS

Storage locker models and intelligent systems can be selected and set according to specific usage scenarios, achieving diversified scene requirements through different module combinations and quickly responding to market changes.
